PROFESSIONAL SUMMARY

Detail-oriented and results-focused front-end developer with 5 years of experience driving business productivity through innovative solutions. Proficient in React, HTML, CSS, JavaScript, TypeScript, and Jest for robust development and testing, known for delivering high-quality and user-centric solutions.

EDUCATION

Bachelor of Engineering, Yeshwantrao Chavan College of Engineering, Nagpur June 2017 - July 2021

SKILLS

Front-End Development	React, Next.js, JavaScript, TypeScript, HTML, CSS, Sass/SCSS, Material-UI, Tailwind CSS, React Router.
State Management and Data Fetching:	Redux, Tan Stack Query (React Query), SWR.
Testing and Tools:	Jest, Enzyme, React Testing Library, Webpack, Git.
Backend and API Integration:	Node.js, Express.js, REST API.
Cloud:	Amazon Web Services (AWS).
CI/CD:	CI/CD (GitHub Actions).
Development Practices:	Agile Methodologies, Performance Optimization, Web Accessibility.

WORK EXPERIENCE

Senior Software Engineer (Frontend Developer) Aug 2025 — Present
Ascendion Engineering Pvt Ltd Pune, India

- Led frontend development using NextJS, TypeScript, Ag-Grid (SSRM), and SWR, delivering high-performance, scalable applications.
- Implemented Ag-Grid using Client-Side and Server-Side Row Models (SSRM), integrating backend APIs to handle datasets of 100k+ records with pagination, sorting, filtering, and grouping, reducing initial load time by 40% through optimized data fetching.
- Leveraged SWR for optimized data fetching, implementing caching, revalidation, error handling, request cancellation, optimistic UI updates, and conditional fetching to improve performance and UX.
- Wrote unit and integration tests using Jest, React Testing Library, and Cypress, increasing test coverage to 80% and reducing regression issues by 35%, ensuring stable and reliable releases.

Lead Software Engineer (React Developer) Aug 2021 — July 2025
Persistent Systems Pvt Ltd Pune, India

- Improved web application performance by 60% through efficient state management and code optimization.
- Enhanced security by implementing authentication and authorization best practices, reducing vulnerabilities.
- Optimized API integrations, reducing response time by 40% and improving data handling efficiency.
- Spearheaded UI/UX improvements, boosting user engagement and usability.
- Maintained high-level expertise in React state management strategies, ensuring efficient state handling and improved application performance.
- Orchestrated the integration of APIs, optimizing for efficiency and interoperability in complex software systems.
- Designed and implemented unit test suites, driving 80% test coverage and significantly reducing regression risk.

PROJECTS

Chessboard – Project Management Tool (Client: CrowdStrike)

- Developed a Smartsheet like tool to track staff involvement across projects with drag-and-drop and automated workflow features.
- Optimized API integrations, reducing the response time by 40% and improving the efficiency of data handling.

- Technology used: React, Redux, JavaScript, TypeScript, HTML, CSS, React Testing Library, Tan Stack Query.

Database Connector Development (Client: CrowdStrike)

- Created user interfaces for data input, retrieval, and storage across databases.
- Improved Web application performance by 60% through efficient state management and code optimization.
- Technology used: React, Redux, JavaScript, TypeScript, HTML, CSS, React Testing Library.

CERTIFICATIONS

- React - The Complete Guide (incl. Next.js, Redux) — Udemy
- Modern JavaScript From The Beginning 2.0 — Udemy
- Web Design Modern SinglePage Website from Scratch Bootstrap — Udemy

ACHIEVEMENT

Bravo - Team Awards: Recognized by the customer for owning and delivering high-quality CIQ releases with consistent excellence and reliability.

High Five - Individual Awards: Commended for maintaining high-quality standards and dedication across all assigned responsibilities.
